Time Travel

From the country's first canal, to a former railway line and the Manchester Ship Canal, and back to walking, cycling or riding the Trans Pennine Trail.

The River Bollin is a short tributary of the Mersey which rises in the Pennine foothills. It now flows into the Manchester Ship Canal near Warburton.

The Bollin Valley Partnership started as a pioneering experiment in 1972, managing land around towns for wildlife, farming and recreation. We now look after over 100 miles (160 km) of way-marked paths; several picnic sites; a Country Park and Visitor Centre; the Aviation Viewing Park; part of the Trans Pennine Trail; and coordinate the Bollin section of the Mersey Basin Campaign.

We work with others to improve woodlands, ponds, grasslands and hedgerows, for both wildlife and people. Partnership Rangers, helped by an Education Group, also run a varied **annual activity programme** (please ring for a leaflet) which includes a Taster Day for people with disabilities.

Encouraging people to enjoy the countryside (preferably without a car) is an important part of our work. **This leaflet is one of 5 indicating the Bollin Valley Way and other recreational routes and opportunities diagrammatically.** For more detail, please refer to OS Explorer Maps 268 and 276. See www.ordsvy.gov.uk.

The 25 mile (40km) **Bollin Valley Way** from Macclesfield Riverside Park to Partington gives walkers a feel for the Valley's variety. It ranges from views of the hills above Macclesfield, through fields and woodlands, towns and villages, under and over roads, railways and canals and past Manchester Airport, to the industries near Manchester Ship Canal.

Please remember: most of these walks cross private farm land. Keep to the paths, take all litter home, fasten gates and keep your dog under control. Country paths are not pavements, so wear sturdy footwear and be prepared for the British weather. Not all paths shown are managed by the Bollin Valley Partnership.

People with disabilities. Sadly it is impracticable to make all country footpaths fully accessible, although ambulant but less mobile visitors will find many paths in the Valley suitable because

they are reasonably level – please ring and check. However, two Trafford parks (John Leigh and Halecroft) are accessible, as is the Trans Pennine Trail. Dunham Massey and Tatton Park (both National Trust) are also largely wheelchair accessible. See www.cheshireforall.com or ring 01244 603107 for more details.

Cheshire Ring Canal Walk 100 miles (160km) of towpath walk. Anticlockwise from Macclesfield, take the Macclesfield Canal to Marple, then the Peak Forest, Ashton and Rochdale Canals into Manchester to join the Bridgewater at Castlefield. Trace the Bridgewater to Preston Brook before turning South along the Trent & Mersey to Hardings Wood Junction near Kidsgrove, then back up the Macclesfield Canal to the start.
